Student Version – Grades 6 through 8

*This is a review copy, not for circulation or use. The actual survey is online with formatting for easier reading. Questions are grouped around school climate topics (in **BOLD CAPS** below). These topics do not appear in the online survey.*

Do you want to take the survey in English or Spanish? *Mark one.*

99% English

1% Spanish

Instructions for students:

This survey is being given to students in grades 6 through 8. The questions will ask how you feel about your school and how students get along with one another and with teachers. We want to know your opinion in order to learn ways to improve your school. When you answer the questions about your school, please think about the way things have been since the school year started in August or September.

Your individual answers to these survey questions are anonymous which means that no one will know how you answered. Student answers will be summarized in a report to the school that does not include anyone's name.

There are several screens of questions and it should take about 20-30 minutes to complete the survey. Use the Next and Previous buttons at the bottom of the screen to go to the next or previous page.

Be careful! Do not use the back button of your browser to go back to the previous page. If you use the browser button, your results will be lost, and you will need to start the survey again.

Below, please enter your Access Code for taking this survey. Your teacher should have this number for you. Many students will have the same code, so you will not be identified by this code.

What is your Access Code for taking this survey? _____
