**Current Position**

*Chair and Professor with Tenure, Department of Curriculum, Instruction, and Special Education, School of Education and Human Development, University of Virginia, July 2023-Present*

**Area of Specialization**

Education policy effects on teaching and learning in the core academic subjects. Special focus on state and district policy related to teacher preparation, induction, evaluation, and professional development and their effects on teachers' classroom practices, commitment, and retention. Includes the study of policy implementation and improving methods for studying policy effects.

**Education**

University of Wisconsin-Madison Department of Educational Policy Studies Program in Educational Policy	Ph.D.	2003
University of Wisconsin-Madison Department of Educational Policy Studies	M.A.	1998
Brown University Education Studies	B.A.	1991

**Professional Experience – Summary**

Chair, Dept. of Curriculum, Instruction, and Special Education, University of Virginia	2023-present
Professor with Tenure, Dept. of Curriculum, Instruction, and Special Education, University of Virginia	2017-present
Associate Professor with Tenure, Dept. of Curriculum, Instruction, and Special Education, University of Virginia	2014-2017
Associate Professor with Tenure, Dept. of Teacher Education, Michigan State University	2010-2013
Assistant Professor, Dept. of Teacher Education, Michigan State University	2004-2010
Postdoctoral Research Associate, School of Education, Stanford University	2002-2004

**Awards**

AERA Division K (Teaching and Teacher Education) Early Career Award (2012).  
Excellence and Innovation in Teaching Award, Michigan State University College of Education (2009).  
Outstanding Reviewer Award, *American Educational Research Journal* (2015); *Educational Administration Quarterly* (2015); *Educational Evaluation and Policy Analysis* (2006, 2008, 2010); *Educational Researcher* (2013, 2014, 2017, 2018, 2020).

#### **Grants – Funded**

**National Science Foundation:** Preparing Elementary Mathematics Teachers for Culturally Responsive Teaching: Connections to Student and Teacher Outcomes (7/1/2023-6/30/2027) (\$1,000,000)

Role: Co-Principal Investigator (PI: Leigh McLean)

Objective: Examine how pre-service teachers' preparation for culturally responsive teaching in their courses and supervised field experiences is related to their enactment of culturally responsive, equitable, and racially just practices during mathematics instruction as novice teachers; their students' academic, behavioral, and attendance outcomes; and their own well-being and retention.

**Eric and Wendy Schmidt Fund for Strategic Innovation (G-22-64182).** Using Neural Networks for Automated Classification of Elementary Instructional Activities (1/1/23-12/31/25) (\$500,000)

Role: Principal Investigator

Objective: Examine whether (a) a combination of human and computer raters can efficiently identify instructional activities in elementary reading/language arts and mathematics videos; and (b) whether deep learning can automatically generate scenarios, classifications, and ratings for teaching simulations.

**National Science Foundation:** The Impacts of Pre-Service Supervised Field Experiences on Elementary Teachers' Retention and Effectiveness in Mathematics. (7/1/2021-6/30/2024) (\$1,500,000)

Role: Co-Principal Investigator (PI: Leigh McLean)

Objective: Investigate the impact of pre-service supervised field experiences on participants' retention decisions and their students' mathematics achievement.

**National Science Foundation (2000487):** Using Neural Networks for Automated Classification of Elementary Mathematics Instructional Activities (9/1/20-8/31/23) (\$1,499,962)

Role: Principal Investigator

Objective: Examine whether (a) a combination of human and computer raters can efficiently identify instructional activities in elementary mathematics videos; and (b) whether deep learning can automatically generate scenarios, classifications, and ratings for teaching simulations

**Robertson Foundation (9909875):** Using Neural Networks for Automated Classification of Elementary Reading and Mathematics Instructional Activities (7/1/20-6/30/23) (\$230,115)

Role: Principal Investigator

Objective: Examine whether (a) a combination of human and computer raters can efficiently identify instructional activities in elementary reading/language arts videos; and (b) whether deep learning can automatically generate scenarios, classifications, and ratings for teaching simulations

**Institute of Education Sciences:** Build the Frame: Using Feedback, Reflection, and Multimedia to Teach Evidence-Based Practices for Effective Classroom Management (7/1/20-6/30/24) (\$1,400,000)

Role: Co-Principal Investigator (PI: Michael Kennedy)

Objective: Develop a feasible and sustainable intervention that, when used by teachers during their preparation to become professionals, will result in positive engagement and academic achievement of K-12 students with disabilities.

**Institute of Education Sciences (R305A160100):** District Policies Related to Principal Evaluation, Learning-Centered Leadership, and Student Achievement (7/1/16-6/30/19) (\$1,399,024) U. Virginia award: \$141,517

Role: Co-Principal Investigator (PI: Morgaen Donaldson)

Objective: Examine associations between district principal evaluation policies, learning-centered leadership, and student achievement in reading and mathematics

**National Science Foundation (1535024):** The Development of Ambitious Instruction in Elementary Mathematics (10/01/15-9/30/18) (\$1,497,618)

Role: Principal Investigator

Objective: Examine how elementary teaching candidates' characteristics interact with a) opportunities-to-learn in teacher preparation courses and student teaching placements and b) resources and expectations in their schools to affect their enactment of ambitious mathematics instruction as 1<sup>st</sup>- and 2<sup>nd</sup>-year teachers

**Spencer Foundation (201600103):** The Development of Ambitious Instruction in Elementary Mathematics and English Language Arts (10/01/15-9/30/19) (\$997,598)

Role: Principal Investigator

Objective: Examine how elementary teaching candidates' characteristics interact with a) opportunities-to-learn in teacher preparation courses and student teaching placements and b) resources and expectations in their schools to affect their enactment of ambitious instruction in mathematics and reading/language arts as 1<sup>st</sup>- and 2<sup>nd</sup>-year teachers
