What is YPAR?
Researcher vs. Research Subject

What is YPAR?

YOUTH

YPAR...

- ➔ is youth-led, youth-informed, and youth-driven
- ➔ understands youth have important information to share about their experiences
- ➔ looks at youth as *co-researchers* instead of research 'subjects'

PARTICIPATORY

YPAR...

- ➔ works *with* youth to answer research questions
- ➔ includes shared decision-making so youth's experiences are considered
- ➔ focuses on youth and adults working collaboratively (both are experts)

ACTION

YPAR...

- ➔ focuses on using what is learned from research to 'take action' (make changes)
- ➔ includes recommendations to make sure everyone is treated fairly and justly
- ➔ tries to build solutions that will continue to work for a long time

RESEARCH

YPAR...

- ➔ is a process with multiple steps that are sometimes repeated
- ➔ is a type of research that focuses on everyone feeling heard, seen, and valued
- ➔ gives youth any training needed to feel ready and skilled to do research activities
- ➔ focuses on learning information that will make a real difference in youth's lives

Who are youth research subjects?

- ➔ Youth are observed and evaluated by adults to answer research questions.
- ➔ Youth are not actively involved in the research process.
- ➔ Adults hold the power and make all the decisions during the research process.
- ➔ Adults are considered the experts.

Who are youth researchers?

- ➔ Youth work with adults to answer research questions.
- ➔ Youth researchers are active during each step and/or multiple steps of the research process.
- ➔ Youth share power and decision-making during the research process.
- ➔ Adults and youth are considered experts.
