M.Ed. Curriculum and Instruction, Reading Education

Writing Sample Requirements for GRE Alternative Admissions

Student seeking alternative admission to the M.Ed. in Curriculum & Instruction – Reading Education may choose to submit transcripts for two program-required courses indicating an earned grade of B+ or better in lieu of submitting GRE scores. The required courses are EDIS 7700: Reading Foundations for Diverse Learners and EDIS 7720: Understanding the Code. A writing sample is required from every applicant seeking admission through this alternative procedure.

The writing sample is designed to demonstrate your ability to work in an academic graduate program. It must be your own original and independent work. You may adapt your sample from work that you have already written for one of your prerequisite courses. If you are new to academic writing, or out of practice, you may find this resource from the UVA library website helpful. If you have questions about the writing sample or the alternative admissions process to the Reading M.Ed. program, please contact Emma Pearson (ecp4ey@virginia.edu).

Instructions:
Compose a 3-4 page essay that discusses your position on a current issue in the field of reading that affects your teaching. The writing sample should briefly describe the issue, critically analyze both sides of the issue, and clearly espouse a point of view. You must support your viewpoint with appropriate vocabulary, details, and sources.

Writing Sample Specifications
1. APA Style (7th edition): typed, double-spaced, 1-inch margins, 12-point Times New Roman font, appropriate headings, etc.
2. Title page
3. Body (3-4 pages)
4. No abstract
5. In-text citations (minimum of 4)
6. References list (at least 4-6 sources). You should select quality resources that are credible and appropriate for your topic. With the exception of optionally including one seminal resource that may be more dated, your resources should also be recent (generally from about the past 10 years or so).
